This note provides an introduction to the mechanics of solids with applications to science and engineering. It emphasizes the three essential features of all mechanics analyses, namely: (a) the geometry of the motion and/or deformation of the structure, and conditions of geometric fit, (b) the forces on ...

As you know, the CFEMA has been working on a standard vehicle inspection form. We felt that due to some unfortunate incidents throughout the country with apparatus, that a standard, simple form, to be used by the drivers, similar to one used by truck drivers in the private sector, can be used to catch possible problems with apparatus before a ...
