Training in the visual arts has generally been through variations of the apprentice and workshop systems. In Europe the Renaissance movement to increase the prestige of the artist led to the academy system for training artists, and today most of the people who are pursuing a career in arts train in art schools at tertiary levels.

Visual-Spatial and Auditory-Sequential Learners observers, learn holistically, need more time to process information, and think in pictures. These are the essential distinctions between the two learning styles.

Identifying Visual-Spatial and Auditory-Sequential Learners
Neuroesthetics (or neuroaesthetics) is a relatively recent sub-discipline of empirical aesthetics. Empirical aesthetics takes a scientific approach to the study of aesthetic perceptions of art, music, or any object that can give rise to aesthetic judgments. Neuroesthetics received its formal definition in 2002 as the scientific study of the ...
