One of the first ways in which we learn to classify objects is into two groups: 1. living and 2. nonliving. In casual encounters with the material universe, we rarely feel any difficulty here, since we usually deal with things that are clearly alive, such as a dog or a rattlesnake; or with things that are clearly nonalive, such as a brick or a ...

Scanner Listening You can learn a lot about what is going on in your community by listening to a scanner radio. It also can be used as a lab instrument if it has remote programming capability as does the ICOM R7000 . I have added an AGC DC output that I can read with my HP 34401 DMM by means of a LabVIEW and ...

1. Introduction. There is a recognised duality between energy consumption and economic growth which underpins quality of life . Strong economic growth and expanding populations are leading to increased global energy demands and consequently carbon dioxide emissions . Given that a large part of the emissions arises from consumption of fossil ...
