Publication fee: An invoice for \$120 will be sent upon acceptance. OPTIONAL Open Access (OA): OA is a system where after acceptance the published paper can be read freely by all readers.

INSTRUCTIONS TO AUTHORS - DESWATER

Desalination is a method for producing water for human consumption, irrigation or industrial utilisation. In this study, a reverse osmosis (RO) system for brackish water desalination was theoretically investigated to produce both potable drinking and agricultural water with a lower overall and specific energy consumption.

An operational and economic study of a reverse osmosis

Response is more severe on damp skin. There may be a latency period of several hours prior to the onset of symptoms. Ethylene oxide may be absorbed by the skin, and sustained contact may
